RAG_testcases.testcases collection details
Documents: 12,708
Size: 173.88 MB
Fields found: 21 (inferred from a sample of 50 documents; the full collection may contain additional fields)
Fields: _id (ObjectId), module, id, preRequisites, title, description, steps, expectedResults, automationManual, priority, createdBy, createdDate, lastModifiedDate, risk, version, type, linkedStories, embedding (numeric array), createdAt (Date), embeddingMetadata (document), and sourceFile.
Indexes:
_id_ on _id
vector_index — ready vector search index on embedding (1024 dimensions, cosine similarity)
Memory_store — ready vector search index reported for this collection
The schema is sample-inferred, so field types and coverage may vary across documents.

Task 2

Restore Checkpoint

Retrieve and list all collection names available in the selected database.

- Identify the purpose of each collection based on its name.

6:00 PM

Completed 2 steps in 6s

The selected database, `RAG_testcases`, has three collections. Their purposes are inferred from their names:

Collection	Likely purpose
`testcases`	Store software test cases
`testcase`	Store individual test-case records, possibly a separate or legacy collection
`userstories`	Store user stories or requirements

These descriptions are name-based; the collection contents may differ.

Task 3

`RAG_testcases`

`testcases` — 5 of 12,708 records

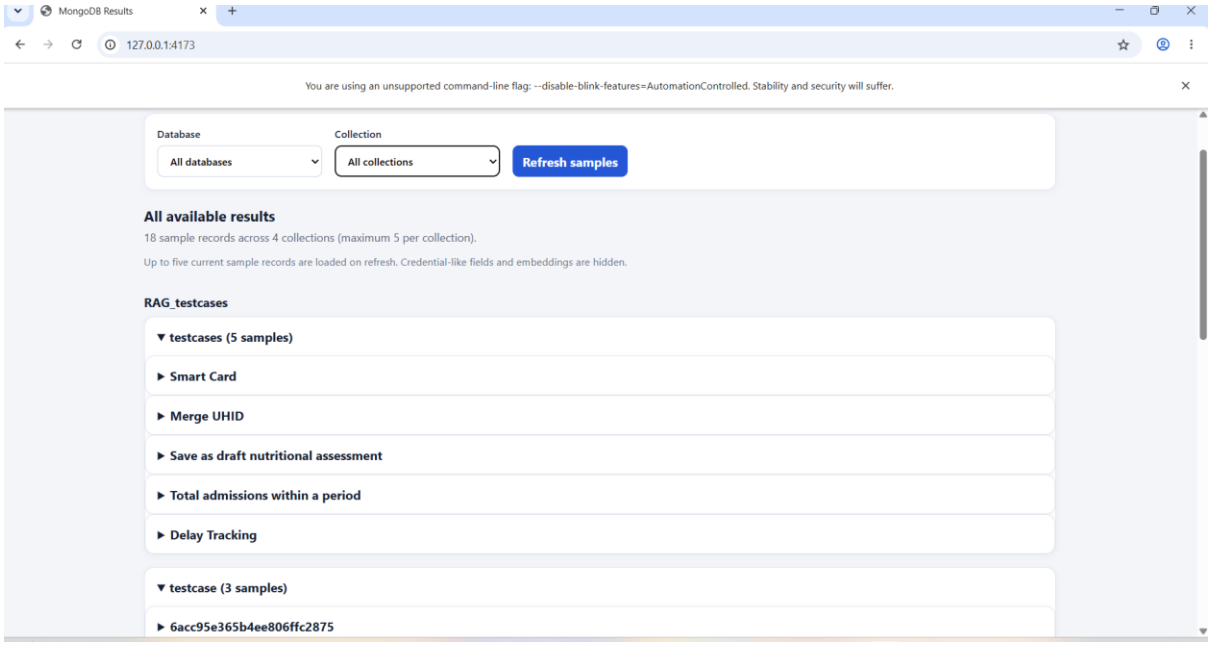

ID	Module	Title	Type	Priority
`TC_024`	Registration	Smart Card	Integration	P1
`TC_027`	Registration	Merge UHID	Integration	P1
`TC_1041`	Digital dietician	Save as draft nutritional assessment	Functional	P4
`TC_1006`	AT (Admission Module)	Total admissions within a period	Functional	P1
`TC_1034`	AT (Admission Module)	Delay Tracking	UI	P1

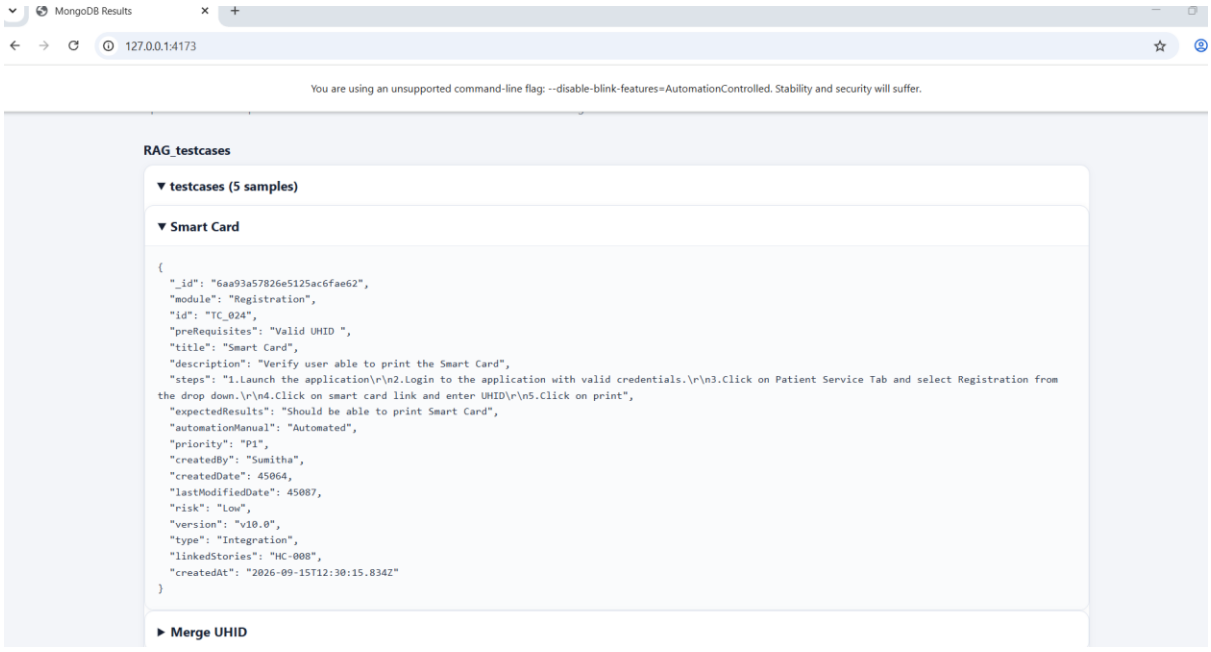

`testcase` — 3 records available

Record	Sample content
1	Search-history record for a billing test-case query; results included “Reports-Bills Report” and “BILL- Delete Role”
2	Search-history record for checkout regression scenarios; results included patient checkout and consultation checkout tests
3	Search-history record for sharing diagnostic reports; results included clinical-report and diagnosis tests

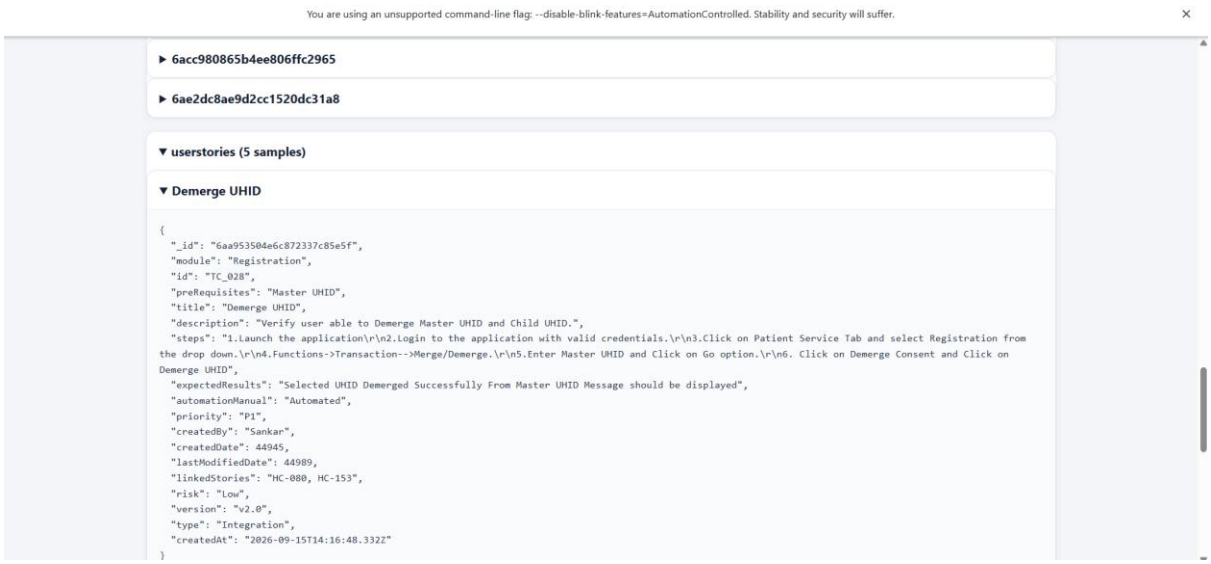

`userstories` — 5 of 6,544 records

ID	Module	Title	Type	Priority
TC_028	Registration	Demerge UHID	Integration	P1
TC_005	Registration	Conversion from PRN/ERN Reg to UHID	Integration	P1
TC_063	Registration	Edit contact info	Integration	P1
TC_1025	AT (Admission Module)	SpecialNotes	UI	P1
TC_049	Registration	RegStateDisCityWiseReport	Integration	P1
