Block/Freeze Debit Card As a bank customer I want to instantly block my debit card from the app So that I can prevent fraud if my card is lost or stolen Acceptance Criteria: Given I select a card, when I tap "Block Card" and confirm, then the card is deactivated within seconds and no further transactions are approved Given a card is blocked, when I view my card list, then its status clearly shows "Blocked" with a timestamp Given a card is blocked, when I want to use it again, then I can request a replacement or (if temp-locked) unblock it via OTP verification

OUTPUT

text

Below is a complete set of Acceptance Criteria for the Block / Freeze Debit Card capability Each criterion is written in the standard Given-When-Then format and grouped by functional, non-functional, security, UX, and compliance concerns. Feel free to cherry-pick or add any additional scenarios that are specific to your product. Scenario (Given-When-Then) Notes
