

Week 4

The screenshot displays the Testleaf API Testcase Generator interface in a web browser. The browser's address bar shows the URL `localhost:5173`. The application header includes the Testleaf logo and the text "API Testcase Generator", with a "Clear" button on the right. The main content area is titled "STEP 3" and "Generated API testcases", with a subtitle "Grounded in the validated OpenAPI operations and schemas." A model selector indicates "Groq LLM - Openai/gpt-oss-120b" is being used, accompanied by another "Clear" button. The testcases are categorized into several colored boxes: "Total Testcases" (7, green), "Positive" (2, light blue), "Negative" (1, orange), "Boundary" (1, purple), "Authentication" (1, light blue), "Validation" (1, pink), and "Error Handling" (1, light green). Below these, a row of testing types shows counts: "Smoke" (2), "Sanity" (0), "Regression" (5), and "Functional" (0). At the bottom, there is a search bar labeled "Search ID, endpoint, method, or title" and a dropdown menu for "All scenario categories". The Windows taskbar at the bottom shows the system clock as 19:37 on 23-08-2026, with a temperature of 31°C and "Partly cloudy" weather.
